"LET IT BURN,"

He Replied, "I Will Wait and See the President."

By Associated Press.

San Luis, Obispo, May 10.—The route of the President's train northward from Los Angeles today was through the Santa Clara valley, where the train ran for hours along the edge of cliffs overhanging the Pacific. At every stopping place today there was a flower show rivaling in beauty the floral parade yesterday at Los Angeles. At Ventura and Santa Barbara, the President was simply overwhelmed with flowers. The carriages in which he rode were lined with them and the streets paved with them. There was no abatement today of the enthusiasm. A drive through the city was in each case a feature at the places where he stopped today. San Luis Obispo was the last stop of the day. It was reached at 7 o'clock this evening in time for a drive through the town.

After crossing the mountain range the train will drop down to Del Monte, on the Bay of Monterey, where the party will remain tomorrow and Sunday.

The program tomorrow will include a visit to the national encampment during the afternoon. Sunday will be given up to rest.

An unusual incident occurred during the President's stay at Santa Barbara. The residence of the chief of the fire brigade caught fire. The fire chief, who was on the street awaiting the coming of the President, was informed that his residence was in flames. "Let it burn," he replied. "I will wait and see the President. I can build another house, but I may never have another opportunity to see the President of the United States," and he stoically remained while his house burned to the ground.

HAWAIIAN LEGISLATURE

Ends Its Existence at Loggerheads With Governor Dole.

By Associated Press.

Honolulu, May 4.—The first territorial legislature of Hawaii came to an end April 30, according to Gov. Dole, and on the next night, according to the majority of both houses.

The legislature ended its existence at loggerheads with the Governor without having passed a single one of the important measures to which the home rulers were committed, except the county government act which the Governor killed by a veto. The last act of the house on the thirtieth was to pass a concurrent resolution containing a memorandum to President McKinley, asking for the removal of Gov. Dole. He is charged with obstructing legislation. President McKinley is asked to use his influence in behalf of an extra session of the legislature to transact general legislation which Dole refuses to grant.

TWELVE

Citizens and Five Policemen

INJURED IN RIOTS

At Detroit in Which Thousands Participate.

AN ATTEMPT BY THE POLICE

To Suppress a Single Tax Exhorter Started the Trouble.

By Associated Press.

Detroit, Mich., May 10.—Fully 10,000 men and boys tonight ran riot in the main street of this city for more than three hours, keeping up a continuous running fire with the police, both mounted and on foot.

As far as known twelve citizens and five policemen were injured. The names of only two citizens are known at present. They are Mike Wallen and Louis Chaplin. The heads of both men were crushed by being trampled upon by horses of the mounted police in a charge on the crowd. The police officers injured are James Tuomey, scalp cut by brick; Henry Scott, hit on head with cobblestone; Thomas Murphy, cheek cut open with a brick; George Moore, badly cut about the head by brick and taken home in ambulance; Barney Roonan, hit with a brick.

The riot began last night when Superintendent of Police Frank Andrews who recently superceded the old police board through the passage of the ripper bill by the legislature, issued an order to the police to allow no one to stand about the wagon of "Tom" Bawden, a local single tax exhorter, who had incurred the ill will of the police director by the extraordinary nature of his remarks on so-called wealthy "tax dodgers."

When Bawden began his exhortation a crowd quickly gathered. Superintendent Andrews supervised the work of the police in keeping the crowd moving. The crowd good naturedly hooted at the police and no violence was done. However the temper of the crowd changed when it was announced that Supt. Andrews had called on reserve officers to assist in keeping the Campus Martius clear. The single tax exhorter came to his wagon and found the Campus jammed with people. The police refused to allow him to locate at any particular point and he drove from one street to another, the crowd following. The mob frequently blocked traffic and the police attempted to disperse them.

It was but a moment before stones began to fly and a general mix-up followed, in which the foot police used their clubs and the mounted police charged. The officers fired their guns in the air and the mob returned the fusillade with bricks and cobblestones. At one time when the mob had gathered about the central police station bricks were thrown through the windows.

In a charge made by the mounted police at this point, Mike Walden was knocked down and three horses trampled over him, cutting his head badly. Policeman George Moore was hit with a stone and his cheek laid open. The other policemen were not seriously hurt.

At one stage of the riot a section of hose was secured by order of the police superintendent and the stream was turned on the crowd, but the hose was cut and the men who wielded the nozzle were driven into a saloon and pounded over the head with an iron cuspidor.

Mayor Maybury was down town watching the crowd and at one time made a speech to the people from the post office steps, cautioning them to do no violence, but stated that he was not in sympathy with the order of Police Superintendent Andrews denying free speech on the public streets. At 11 o'clock tonight the mob had greatly dwindled to a mere handful, and the city is quiet.

RAPID

Progress Was Made Friday

IN ESTABLISHING

Confidence and the Rebound in Prices

WAS SURPRISINGLY LARGE

The Close of the Market Was Strong and at the Top.

By Associated Press.

New York, May 10.—Rapid progress was made in re-establishing confidence in Wall street today, and there was a natural rebound in prices. That is to say the fact of the rebound was very natural after the extent of the declines of yesterday, but the range of the recovery was surprising.

Large progress was made toward wiping out the net losses which remained last night after the recovery had set in on the exchange. In a number of stocks which were not acutely affected yesterday today's prices rose above Wednesday's closing level, and in Missouri Pacific yesterday's net loss was recovered with three points to spare, the extreme advance reaching 15 points.

There was a good deal of trepidation still evident this morning, owing to the vague dread that there might be stock exchange houses who would be unable to meet their obligations after yesterday's experience. The market was, therefore, unsettled and feverish even after the strong opening, but when the official announcement was made that the clearing sheets of all the members of the stock exchange had gone through the stock exchange clearing house perfectly and that all their checks had been honored, a feeling of relief was manifested and steadily grew throughout the day.

During the latter part of the day there was a resumption of what looked like a speculative movement for the rise, led by Union Pacific. The buoyancy of this stock and the accompanying strength of the southwesterners was based upon rumors and assumptions of benefits to accrue to Union Pacific from a change in control of Northern Pacific, which was still stoutly claimed by the Union Pacific party. Undoubtedly there was very many speculative losers of great resources in the collapse of Thursday who retained their nerve and determination and who set about to recoup themselves by new speculation in the market. The other buyers were those who had gotten out early in yesterday's slump and who still saw a profit in getting back at the prices ruling today. The bargain hunters were also on hand in considerable force and there were many cash transactions both in bonds and stocks representing the purchases.

This outcome of affairs was pretty well assumed when the news was learned this morning of the settlement effected with the shorts in Northern Pacific on the basis of \$150 per share.

This removed the overshadowing fear from the market and the quotations for Northern Pacific on the tape at 150 still further allayed the apprehension. The stock sold at 200 for cash afterward, but the progress of the settlement with the shorts at the offices of the conflicting interests in Northern Pacific prevented any future disturbance on that group. The measures taken by the banks, which placed heavy loans in the market yesterday, and their decision not to call loans today, completed the tranquillizing influence. The market closed strong and at the top with a feeling of relief over tomorrow's holiday.

Bonds showed some wide recoveries, U. S. 4s declined 1/4 per cent.
